Expert Lecture on Wastewater Treatment and Climate Change

The Department of Chemical Engineering, MNIT Jaipur, organized an expert lecture by **Dr. Sanjay Sengupta, Retired Senior Scientist, CSIR**, to strengthen industry–academia interaction.

Dr. Sengupta delivered an insightful lecture on **"Wastewater Treatment and Climate Change,"** sensitizing students to critical environmental challenges, climate change, and the importance of pollution control. He discussed how industries manage solid, liquid, and gaseous pollutants using advanced treatment technologies and sustainable practices.

He also encouraged students to explore career opportunities in industrial pollution control, wastewater treatment, environmental management, and sustainability.

The session provided valuable insights into the practical challenges of environmental protection and inspired students to contribute towards a cleaner and more sustainable future.

The Department sincerely thanks Dr. Sanjay Sengupta for sharing his knowledge and experience and for motivating our students.
